DETAIL ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 12/20/07 has been entered.

1. Claims 1-17 are presented for examination.

Claim objection

2. Claims 1-17 are objected to because of the following informalities:

In line 15, claim 1 recites, "...in each code block" and it should recite, "...in each code sequence block" to show proper antecedent.

Claims 2 and 16 are at least objected for their dependencies, directly or indirectly, on the objected claim 1 above.

In line 25, the claim 3 recites "the code sequence block" and it should recite "in each code sequence block".

Claims 14, 15 and 17 are at least objected for their dependencies, directly or indirectly, on the objected claim 3 above.

In lines 4 and 5, claim 4 recites "the divided code sequence block" and it should recite "in each code sequence block"

Claims 5-7 are at least objected for their dependencies, directly or indirectly, on the objected claim 4 above.

Claim Rejections - 35 USC § 112, 2nd

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 2, 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites, “a first redundant code composed of plural code sequence blocks used for hard-decision type data error correction, which are composed of a plural code block” (see lines 11 and 12) which renders the claim indefinite since it is not clear how to distinguish between the composed plural code sequence blocks and composed of a plural code block that makes up the composed plural code.

Claims 2 and 16 are at least rejected for their dependencies, directly or indirectly, on the rejected claim 1 above.

Regarding claims 16 and 17, line 4, which have the phases "**can be corrected**", are not specific and vague (for example, symbols can be corrected by the first redundant code which is the symbol can be or cannot be corrected with the first redundant code).

Allowable subject matter

4. Claims 1-17 would be allowable if rewritten or amended to overcome the claim objections and rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
